

Special Task

Please have a look at the panel on the right/left side with the tab “Achievements”:

When you click on it, a new window with a list of achievements will open. Each achievement consists of a level (symbolized by the trophy), title, description (visible by hovering over the question mark), supported languages and a progress indicator. In addition, notifications on the bottom right will be shown when a certain threshold or new level of an achievement is reached.

We encourage you to have a look at the achievements and try to solve them, but you do not have to.

Please fill in this survey **after** the experiment:

<https://forms.gle/F6P6ac8pavSTLya36>

Your personal ID can be found beneath the list of achievements and copied with the button right next to it:
